Activity:

[1] Look at all the monsters on the poster. Which do you think is most like you? Why?

[2] What can you tell about the monsters by looking at them?

[3] Which monsters have things that are the same as each other?

[4] Can you choose 3 monsters and talk about all the things that are different from each other?

[5] How can you tell which is the kindest monster? How do you know if someone is kind?

[6] Each of the monsters finds something really difficult... can you tell what each monster finds tricky? How could you find out? What might they need to help them with the thing they find hard?

[7] Draw yourself as a monster – what colours are you going to choose and how can you show your qualities on the drawing – things you value about yourself

[8] Do you know someone who finds something tricky? How do you help them? How could we help them more? What do they need? [9] What do you need to help you with hard things? Can you write about it or draw it?

**Makes** 1 coloured ball

**Prep** 10 minutes

#### **You will need**

- 8 tbsp plain flour
- 2 tbsp table salt
- 60ml warm water
- food colouring
- 1 tbsp vegetable oil

#### **Method**

1. Mix the flour and salt in a large bowl. In a separate bowl mix together the water, a few drops of food colouring and the oil.
2. Pour the coloured water into the flour mix and bring together with a spoon.
3. Dust a work surface with a little flour and turn out the dough. Knead together for a few minutes to form a smooth, pliable dough. If you want a more intense colour you can work in a few extra drops of food colouring.
4. Store in a plastic sandwich bag (squeeze out the air) in the fridge to keep it fresh. You can make a batch of colours and give away as kids' party bag favours or hold a playdough party for your child's next birthday.
